Index - January - December - 1934

JANUARY — *Page*

1934 Convention Committees 6
Strausser — Accelerated Tests of Electro-Plated Metal Coatings on Steel 6
Tingley — Cleanliness and Order 17
Sanigar — Abstract Section 25
Hirsch — Barrel Nickel Plating of Fabricated Sheet Zinc Parts 31
O'Neill — Plating Barrels 37

FEBRUARY —

Lopiesti — Alkalinity and pH in Nickel Solution 3
Tingley — Some Laws of Good Work 9
Sanigar — Abstract Section 24
Robson — Faraday's Laws—Plating Applications 31

MARCH —

Clindinin — Practical Methods of Cleaning Before Electro-plating 5
Standard Specifications 11
Tingley — Some Principles of Good Management 15
Sanigar — Abstract Section 25
Rhodium 33
Protection of Workers Exposed to Chromium and its Compounds 39

APRIL —

Opening Argument on Behalf of Defendants—United Chromium Inc., vs. General Motors Corp., et. al 13
Maurer — Some Problems in Technical Control of Nickel Plating Production 42
Tingley — Some Executive Principles for the Executive Himself 49
Sanigar — Abstract Section 55

MAY —

Strausser — Monthly Progress Report 9
Alter-Mathers — The Reduction of Mist or Spray from Chromium Baths by Fixed Oils Such as Fish Oil 11
Sanigar — Abstract Section 17
Arguments on Final Hearing—United Chromium Inc., vs. General Motors Corp., et. al 23

JUNE —

Wick — Notes on Cyanide Solutions 10
Thompson — Notes on Analysis of Alkaline Tin Plating Solutions 16
Tingley — Organization and Industry 23
Oldam — Gold Electro-Plating 27
Report on Health Hazards 34
Sanigar — Abstract Section 37
Pines — Acid Tin Plating 49

Tingley — Organization and Industry 23
Oldam — Gold Electro-Plating 27
Report on Health Hazards 34
Sanigar — Abstract Section 37
Pines — Acid Tin Plating 49

JULY —

Detroit Convention Report 5
Nankervis — Low Voltage Motor Generator Sets 14
Gebhart — Plastics and Plastic Moldings 24
Bernard — Metal Cleaning and Metal Cleaning Compounds 28
Tingley — Costs—What are They? 32
Sanigar — Abstract Section 39

AUGUST —

Hogaboom — What is Under the Plate? 5
Blum — Protection Value of Plated Coatings on Non-Ferrous Metals 14
Cunningham — Some New Developments in Buffing Compositions .. 25
Sanigar — Abstract Section 36

SEPTEMBER —

Summary of Researches on Electro-Plating at National Bureau of Standards 3
Blum, Strausser, and Brenner — Summary Protective Value of Plated Coatings on Steel 8
Thompson — Testing of Plated Metals for Compliance with Federal Specifications 11
Tentative Schedule of Exposure Tests of Electro-Plated Steel 29
Marean — Solvent Degreasing 31
Sanigar — Abstract Section 43

OCTOBER —

Castell – Diffusion on Copper Plated Zinc Base Die Castings 7
Kittner — Rubber in the Plating Industry 17
Pan — Concentrated Cyanide Copper Plating Baths 26
Bintner — Finishing Bronze and Brass Statues 31
Sanigar — Abstract Section 41

NOVEMBER —

Conference on Electro-Plating in New York City 6
James — A Method of Costing Plated Parts 10
Eckelmann — Bright Nickel 18
Meyer — Electrolytic Cleaning and Pickling 37

DECEMBER —

Editorial — The Membership Drive 5
Woodmansee — Copper Cyanide Solution and its Idiosyncrasies 7
Pan — Concentrated Cyanide Plating Baths 16
Hay and Lockerbie — What Effect has the Shape of the Electro-plated Article on Throwing Power? 21
Tanner — Rust Proofing Before Color Finishing 29
Exposure Tests of Plated Coatings 35
A Morro Castle Every Other Day 40
Slattery — The Abstract Section 43
Branch News 49
Membership Report 55
Buyers' Guide 58
